BESPOKE
ESTATE AGENTS

# Social Media Strategy

BESPOKE ESTATE AGENTS
GOLD COAST · JUNE TO DECEMBER 2026

CONFIDENTIAL DOCUMENT

# The Strategy

What we are building, why it works, and what it means for Bespoke Estate Agents on the Gold Coast.

PURPOSE

## Social media is not just about Jason appearing online. It is about building a brand that works in the background of every conversation.

Every listing presentation, every referral, every phone call from a homeowner thinking about selling: social media is what makes Bespoke the agency they already recognise. It runs alongside portals, signboards, and word of mouth to keep the brand visible, credible, and top of mind in between campaigns. A consistent rhythm of two well-crafted posts per week builds that recognition quietly and effectively over time.

PLATFORMS

**4**
CONTENT PILLARS

### Jason Ward

The Awareness Engine. Jason is the human presence: the face, the voice, the expert. Every piece of brand content that features Jason is building name recognition and trust with Gold Coast homeowners who will one day need an agent.

### Bespoke Estate Agents

The Delivery Mechanism. Bespoke is the entity that carries the reputation, the systems, and the results. Where Jason builds the relationship, Bespoke delivers the outcome. Both are built together through every post.

# Platforms & Posting Rhythm

Where Bespoke shows up, and how often. Simple, consistent, and sustainable.

### Instagram

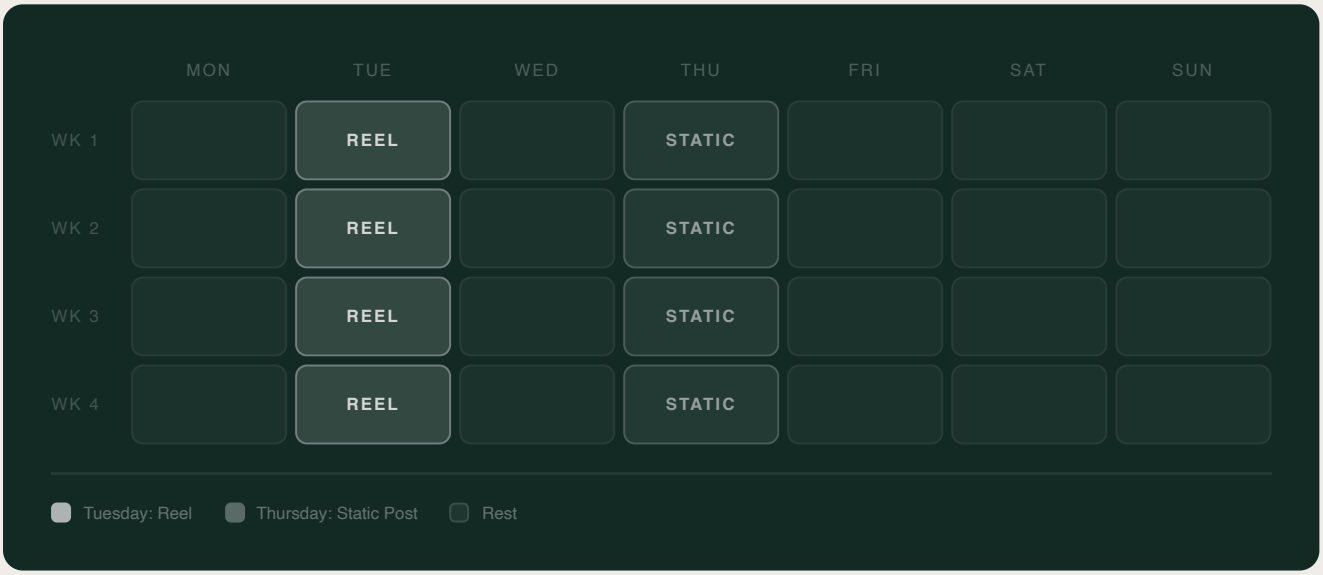

Primary platform for visual storytelling and Reels. The main channel for face-of-brand content, reach, and engagement with the Gold Coast prestige market.

### Facebook

Mirrored content to reach local homeowners and a broader demographic that still relies heavily on Facebook when researching property and local agents.

## Monthly Posting Calendar

Every Tuesday: a Reel. Every Thursday: a static post. Posting on the same days each week builds audience expectation and keeps the algorithm consistent. Listing content layers on top as separate campaigns whenever a property is live.

## The Four Pillars

EVERY POST MUST FIT ONE

### Authority

Clear, useful market insight that positions Jason as the knowledgeable local voice. Market updates, suburb data, pricing perspective.

### Connection

Human, approachable moments that show the person behind Bespoke. Real, polished, never staged. Personality that earns trust.

### Visibility

Content built to reach new audiences who do not yet follow Bespoke. Strong hooks, local topics, designed for discovery.

### Proof

Results, testimonials, and campaign stories. The outcome speaks without boasting. Quiet credibility that compounds over time.

# Monthly Content Mix

Eight posts per month, split evenly between Reels and static content: each with a defined purpose and pillar.

## 8 Posts Per Month

The monthly output is intentionally lean. Eight quality posts, consistently published, outperforms twenty inconsistent ones every time. The format split gives Bespoke both reach through Reels and authority through static content across the same month, without overwhelming the production schedule.

REELS: 4 PER MONTH, EVERY TUESDAY

| AUTHORITY | AUTHORITY | PROPERTY | CONNECTION |
|---|---|---|---|
| REEL | REEL | REEL | REEL |

STATIC POSTS: 4 PER MONTH, EVERY THURSDAY

| PROPERTY | CAROUSEL | JASON | PROOF |
|---|---|---|---|
| STATIC | STATIC | STATIC | STATIC |

Reels: reach, face-of-brand, and new audience discovery

Static posts: authority, proof, and saves

LISTING CONTENT: ADDITIONAL, PER PROPERTY

NEW LISTING · OPEN HOME · UNDER CONTRACT · JUST SOLD

*Each property that goes to market gets its own content layer on top of the base eight. A mini campaign that follows the listing from announcement through to sale, ensuring every property has a strong digital footprint while the main feed stays curated and strategic.*

# Content Types

Four Reels every Tuesday. Four static posts every Thursday. Here is what each format is designed to do.

## REELS

4 PER MONTH · EVERY TUESDAY

### 1 Authority Reel

2 PER MONTH

Jason sharing one clear, useful insight on a topic he knows well. One idea per video, delivered in plain language. The viewer finishes thinking: that agent genuinely understands this market.

AUTHORITY · VISIBILITY

### 2 Property Reel

1 PER MONTH

Jason introducing a property or neighbourhood. The focus is on lifestyle and story rather than listing copy. Should feel like a curated preview that makes the viewer want to know more.

PROOF · VISIBILITY

### 3 Connection Reel

1 PER MONTH

Jason in real moments from his working week. More personal than the Authority Reel, but still polished. Over time these build the sense that Bespoke is active and genuinely part of the Gold Coast.

CONNECTION

## STATIC POSTS

4 PER MONTH · EVERY THURSDAY

### 1 Premium Property Photo

1 PER MONTH

A strong image from a current or recent listing that reflects Bespoke's standard. Concise caption, lets the property do the talking.

PROOF

### 2 Carousel Guide

1 PER MONTH

A multi-slide post covering one topic in clear steps: pricing factors, how to prepare for sale, or a suburb breakdown. Designed to be saved and returned to.

AUTHORITY

### 3 Jason Brand Photo

1 PER MONTH

An on-brand photo of Jason in context: at a property, in a neighbourhood, at work. Short personal caption. Simple, grounded, and genuine.

CONNECTION · AUTHORITY

### 4 Result or Social Proof

1 PER MONTH

A just-sold result, campaign highlight, or testimonial. Focus always on the client outcome. Let the result speak without superlatives.

PROOF

# Caption Rules & Tone of Voice

How Bespoke speaks, and how every caption is structured to stop the scroll and invite a conversation.

CAPTION STRUCTURE

## Three parts. Every time.

1

### The Opening Line

The most important sentence in any caption. It must stop the scroll before anything else is read. A clear topic statement, a direct question, or an observation that earns the next line. Do not warm up slowly: lead with the point.

> *"What's actually driving prices up in Mermaid Waters right now."*

2

### The Value

Two to four lines of insight, explanation, or story. Plain language, no jargon for its own sake. One idea per caption, not three. Give the reader something they did not know before, or confirm something they already suspected.

3

### The Soft Invitation

A gentle call to connect when the reader is ready. Not a push. Real estate decisions take time. The caption just needs to stay top of mind.

> *"If you're thinking of selling in [area], happy to talk through your options anytime."*

TONE OF VOICE

## How Bespoke sounds.

**DO** Speak like a knowledgeable local, not a corporate brochure. Jason's personality informs the tone, but the voice always represents Bespoke.

**DO** Give clear, useful information. Expert without being inaccessible. Informative without being condescending.

**DO** Be confident in the work. Calm, grounded, and never showy. Let the properties and results speak for themselves.

**DO** Write for a prestige homeowner who does not need to be sold to: they need to be informed and made to feel understood.

**AVOID** Promising specific prices, timelines, or number of offers in any caption or graphic. These create legal and expectation risk.

**AVOID** Overly sales-heavy or exaggerated language. Superlatives that cannot be substantiated dilute trust over time.

**AVOID** Trend-chasing formats or phrases that do not fit Bespoke's brand or Jason's personality.
