Coast Life Constructions — Instagram Bio Variants

Managed by 10x Visuals | Pick one, test for 4 weeks, then rotate.
Benchmark note: @barlowbuilding uses a single-word all-caps brand mark. @grimmondau does the same. Long descriptive bios pull the account back to "local trade" positioning. Keep it short and premium.

Instagram bio limit: 150 characters. All variants below fit.

Variant 1 — Professional (recommended start)

> *Custom homes & renovations · Gold Coast*
> *Family-run. Built the right way.*
> *↓ Latest builds*

Char count: 78

Variant 2 — Proof-led

> *Gold Coast custom builders since [YEAR]*
> *[N]+ homes handed over*
> *Booking [Q1 2027] consults ↓*

Char count: 96 (with real numbers)

Variant 3 — Craft-forward

> *Custom homes, honest builds, Gold Coast local.*
> *No shortcuts. No cookie-cutter.*
> *Latest walkthrough ↓*

Char count: 108

Variant 4 — Personality-forward

> *Two brothers. One rule: build it the way we'd build our own.*
> *Gold Coast custom homes + renos ↓*

Char count: 96 (adjust "two brothers" to match real team makeup)

Variant 5 — Architect / trade-facing

> *Gold Coast builder for architects & designers who don't compromise.*
> *Design-and-build ↓*

Char count: 92

Variant 6 — Barlow-style editorial (RECOMMENDED once proof numbers are locked)

> *COAST LIFE.*
> *Custom homes & renovations. Gold Coast.*
> *Built the right way — latest project ↓*

Char count: 96
Why: Directly mirrors Barlow's editorial single-word framing. Signals "architect-led builder" not "local trade." This is the target positioning.

Recommended pick

Variant 6 (editorial) — aligns with the Barlow benchmark and moves fastest away from the current tradie-page perception. Test for 4 weeks. Fall back to **Variant 3** if profile visits drop, or **Variant 2** once real proof numbers are locked in.

Handle note

@coast_life_constructions_qld is long and reads more "small business" than "brand." Barlow (@barlowbuilding) and Grimmond (@grimmondau) both use tight brand-first handles. **Do not rebrand the handle mid-flight** — losing follower count and search history isn't worth it at this stage. Revisit at 5k followers.

Link in bio

Use one link-in-bio tool (Linktree, Beacons, or a simple `/links` page on the Coast Life site) with:

1. Latest project walkthrough (video)
2. Book a consult (form)
3. Recent builds gallery
4. About the team
