CONSTRUCTION PRODUCT SHORTLIST

Products that make a tradie's or builder's day easier, or that people need to build and fix houses. Every one is advertising right now on Facebook and Instagram in the US, with ads rated 4 to 5 stars, from brands running 100 to 400 active ads. Each card shows the problem it fixes for the buyer and why it could work as a product. Tap any card to watch the ad or open the product page, and tick Good, Maybe or No.

WINDPROOF TARP CLIPS

194 days running

FIXES

Tarps rip at the eyelets or don't have one where you need it. These clips bite onto the tarp anywhere and hold in wind.

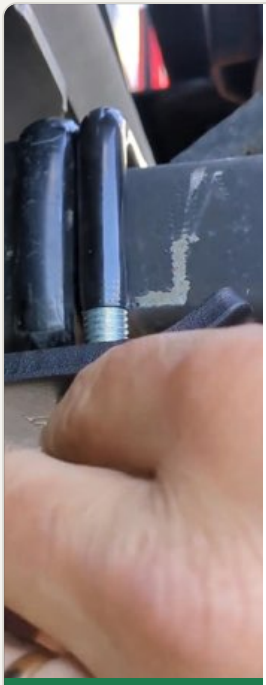

WHY IT COULD WORK

Anyone tarping a ute or trailer load buys these. Cheap, tiny and light to post, and rebought as clips get lost. Easy bundle with straps.

ESASKE

ANTI-RATTLE HITCH TIGHTENER

100 days running

FIXES

A loose tow hitch clunks and rattles every time you brake or hit a bump. This U-bolt clamp locks the hitch tight.

WHY IT COULD WORK

Every towing customer hates hitch rattle. Small, light, mid-price, and an easy upsell on a towing store.

PARKIT360

ELECTRIC TRAILER DOLLY

30 days running

FIXES

Moving a trailer or boat by hand into a tight spot is heavy and awkward. A powered dolly does it with a remote.

WHY IT COULD WORK

Big-ticket sale to trailer and boat owners, so big profit per order. But heavy freight, more stock money tied up and harder returns.

Big-ticket item; heavier to ship.

MROACE

MAGNETIC SOLAR WIRELESS TRAILER CAMERA

70 days running

FIXES

Reversing a long trailer or caravan blind into a tight spot. A camera sticks magnetically on the back of the trailer, charges by solar and shows the view on your phone.

WHY IT COULD WORK

Anyone towing a caravan, boat or trailer. Mid-price, light to ship, demos well in a video ad. Caravan stores mostly sell wired versions.

Ad has run 70 days. Check AU sellers (caravan accessory stores sell wired versions).

CLARIOY

WIRELESS UTE AND TRAILER BACKUP CAMERA

132 days running

FIXES

Mirrors miss what's behind a ute, trailer or caravan. A wireless camera shows it without running cables.

WHY IT COULD WORK

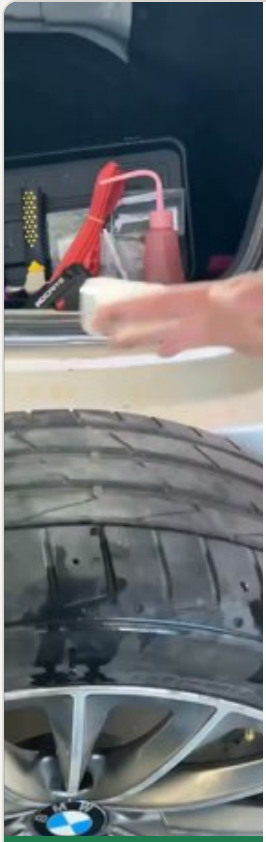

Ute and trailer owners. Mid-price and light. Lots of cheap clones, so it needs a brand angle or a bundle to stand out.

Ad has run 132 days. General store; quality to check.

LORIBEAUT

SELF-SEALING TYRE PUNCTURE REPAIR

20 days running

FIXES

Screws and nails on building sites flatten ute tyres. A self-sealing plug fixes the puncture on the spot without taking the wheel off.

WHY IT COULD WORK

Tradies pick up screws on site constantly. Cheap, small, and used up, so people rebuy. Supercheap and Repco sell plug kits, so the price gap needs checking.

Ad has run 20 days, so it's new. Check AU tyre repair kits at Supercheap/Repco.

PORTABLE SMART KEY LOCK BOX

71 days running

FIXES

Hiding keys on site or at camp for the crew or the next person. A portable lock box opens by code or phone.

WHY IT COULD WORK

Tradies leaving keys for apprentices, clients or Airbnb guests. Small, mid-price, ships easily. Bunnings sells basic key safes, not smart portable ones.

Ad has run 71 days. Bunnings sells key safes; check whether a portable smart one is stocked.

RHINO USA

RETRACTABLE RATCHET STRAPS

131 days running

FIXES

Normal ratchet straps tangle, flap in the wind and take ages to roll up. These retract into the ratchet like a seatbelt.

WHY IT COULD WORK

Benchmark only. RHINO USA is about the only strap brand advertising at scale on Meta, so its ads show which hooks and offers work.

Your product. A US brand running the same idea, shown here for reference.

DV8 OFF-ROAD

8-TONNE D-RING RECOVERY SHACKLES

129 days running

FIXES

Recovering a bogged ute or trailer needs rated shackles that won't fail under load.

WHY IT COULD WORK

MUDMIXER

CONCRETE FORMEXTENDERS

46 days running

FIXES

When formwork has a gap, you normally cut new form boards. These clip on and close the gap, saving time and timber on every pour.

WHY IT COULD WORK

Concreters buy for every job, so steady repeat orders. Trade-only niche: smaller market, but loyal buyers and little online competition.

Trade-only product, strong fit for concreters.

EXTEND-A-REACH

DECK STAIN BRUSH POLE

45 days running

FIXES

Staining a deck on your knees wrecks your back. A long brush pole lets you do it standing.

WHY IT COULD WORK

Homeowners and deck builders. Light and cheap to post. Seasonal.

TIMBERTECH

COMPOSITE DECKING

156 days running

FIXES

Timber decks need sanding and oiling every year. Composite decking doesn't.

WHY IT COULD WORK

Building material sold through dealers. A different business.

> Big established brand, sold through dealers. Not a white-label play.

BEEST FULLSTOP

DIY SPRAY FOAM INSULATION KIT

40 days running

FIXES

Draughts and gaps that fibreglass batts miss around frames, rim joists and penetrations. A two-part kit seals them yourself without hiring a spray-foam crew.

WHY IT COULD WORK

Builders and DIY renovators. Hazardous freight and AU labelling rules. Only worth it as part of a building-materials line.

> Two-part foam is chemicals: dangerous-goods shipping and Australian labelling rules. Bigger gap in the US, where foam insulation is far more common.
