PREPARED FOR [FIRST NAME]

Listings that stop the scroll and *fill the inspection.*

You are getting back into selling. The photos are the first thing a buyer sees, and they decide who books the inspection. Here is a simple, premium way to make every listing look like it should.

Why it matters

Buyers scroll before they ever call. The first image decides whether your listing gets a tap or gets skipped.

Great photography is the cheapest lever you have on price and days on market. Sharp, bright, well composed images earn more clicks, more enquiries, and more people through the door. This is about making your name the one vendors trust with their biggest asset, right from your first listings back.

What you get, every listing

- **Full home coverage.** Every key room plus exterior, shot to feel bright, spacious and true to the property.
- **Portal and print ready.** Sized correctly for realestate.com.au, Domain, social and brochures.
- **Next business day delivery.** Edited high resolution images back fast, so you list without waiting.
- **Professionally edited.** Colour, exposure and window views handled properly. No phone snaps, no over cooked HDR.

Packages

Add on anything, a la carte

Drone exteriors and aerials	**$120**
AI virtual furnishing, per image	**$2**
Twilight hero shot	**$100**
Same day rush delivery	**$80**

How it works

1

Book

Send the address and list date. I confirm a shoot time that beats your deadline.

2

Shoot

I photograph the home at the right time of day for the best natural light.

3

Deliver

Edited gallery back the next business day, ready to upload.

4

List

You go live with images that make the property look its absolute best.

A founding rate, locked while you build back up

These are founding client prices, held for you as you get back into selling. No lock in, no contracts, no minimums. Pay per listing, use me when it suits, and keep this rate as your volume grows. If a set ever misses the mark, I reshoot the frames that need it at no cost.

Getting started

1. **Pick a package** for your next listing, or start with Essentials.
2. **Send the address and list date** and I lock in the shoot.
3. **Go live** with a gallery that does the selling for you.
